

The standalone theme that I mentioned was simply that the word "time" could come after the first words of each of the 4 theme answers. GOOD TIME, CLOSING TIME, ONE TIME, and DOUBLE TIME are all common phrases. Then, for the meta, the title implied that you were looking for something shared across these time-related entries. And indeed, each of these 4 long entries had exactly 5 letters in common with the others. In no particular order, those letters were OODCN, which anagram to **CONDO**, which is a five letter word, and a housing option that is often a timeshare, making it our meta answer.
